McDonald Electrical Completes 115,000sf LogMeIn Expansion – 333 Summer Street, Boston Seaport District

GC: Commodore Builders, Waltham, MA; Owner: Synergy Investments, Boston, MA

BOSTON, MA – McDonald Electrical Corp. (MEC) has completed the comprehensive electrical renovation project at 333 Summer Street, including the tenant fit-out of expanded offices for software connectivity company, LogMeIn.

The project scope comprised MEC’s installation of new building’s power and electrical distribution systems, interior lighting and lighting control, and life safety/fire alarm systems at the 115,000 square-foot, 8-story building. Integral to the project was the installation of a new 2500A / 280V, 3-phase electrical service from a new utility transformer. McDonald also installed a new 170kW Life Safety Generator and a 100kVA UPS with a power distribution unit for data center power.

The electrical fit-out for LogMeIn entailed providing new power throughout the building for LogMeIn offices, breakout rooms, exercise areas, and cafe areas. McDonald met an aggressive 7-month project schedule, managing a field crew of 32 IBEW Local 103 electricians. The project was completed in December 2015.

SAFETY NEWS

NECA Safety Professionals Conference Set for May 23 - 25 in Indianapolis

The National Electrical Contractors Association (NECA) Safety Professionals Conference (NSPC), the electrical construction industry’s premier annual safety event, provides the most useful and up-to-date information on regulation, compliance, management techniques and standards development that impact safety and health in the electrical construction industry. Safety directors, project managers, human resource and supervisory personnel from NECA member contractors nationwide are scheduled to attend and will learn the latest information on OSHA regulations and industry best practices. Learn more and register for NSPC, scheduled May 23 - 25 in Indianapolis, at www.necasafetyconference.com.
