LAN-TEL Communications Mobile Access Command Unit (MACU) Deployed for Security at Several Major Public Events in Massachusetts

NECA Boston Contractor Expands Security Capabilities with First-in-New England Technological Advancements

LAN-TEL Communications, Inc. is the often called upon low-voltage contractor and security system provider for the City of Boston, having provided hundreds of wireless video security system installations throughout the city and integrating them into an area headquarters. The NECA Boston contractor is an industry leader and trusted provider of structured cabling systems, integrated public safety and security solutions and IT infrastructure services. For more than 26 years, LAN-TEL has offered integrated security system support services and innovative low-voltage technologies in New England’s largest corporations, hospitals, educational facilities, and municipalities.

On Tuesday, September 11, NECA Boston Chapter held a Best Practices for Electrical Contractors workshop at the Boston Marriot Quincy. Experts in project management, specialty insurances, bonding, banking/commercial lending services, and legal matters including diversity requirements provided the most current information that will ensure contractors are poised for success in Greater Boston’s highly competitive electrical construction market.

The workshop was highlighted by an “Inside Look into Project Management” presented by Instructor Wayne DePico, Adjunct Professor at Wentworth Institute of Technology. The seminar covered best practices as relates to project scheduling, execution, change management, project documentation, and risk management.

NECA at Forefront of Technology with Educational Programs – BIM Workshop Held at Greater Boston JATC

On September 11 and 12, NECA Boston conducted a comprehensive Level 1 Introduction to BIM workshop at the JATC Greater Boston Electrical Training Center attended by 23 NECA member electrical contractors. The continuing education series continues with BIM Level 2 and Level 3 Series workshops scheduled in October and November.

About NECA Boston Chapter

The National Electrical Contractors Association (NECA) is the voice of the $130 billion electrical construction industry responsible for bringing electrical power, lighting, and communications to buildings and communities across the United States.

Representing more than 80 electrical and telecom contractors in Eastern Massachusetts, Maine, and New Hampshire, our Association is dedicated to promoting the highest construction standards through education, management training, skilled workforce training, and labor relations.

NECA electrical contractors provide a comprehensive range of electrical services for diverse projects, large and small. Working in partnership with the union electrical industries in Massachusetts, Maine, and New Hampshire (IBEW Local Unions 103 in Boston, 490 in Concord, NH, 1253 in Augusta, ME and 567 in Lewiston, ME), the NECA Boston Chapter and its contractors have an unwavering commitment to bring the highest levels of experience, quality, reliability, and safety to each construction project.

In the world of construction, quality and safety are critical to every project. Which is why leading architects, general contractors, building owners, and facility managers throughout Eastern New England rely on the skilled union electricians of Local 103 of the International Brotherhood of Electrical Workers (IBEW) and the professional electrical contractors of the Greater Boston Chapter of the National Electrical Contractors Association (NECA). For more than a century, IBEW and NECA have literally helped build our region. From our most cherished historical sites and renowned educational institutions, to major transportation projects, leading technology companies, community schools, and libraries, our landmarks shed light on a century of electrical construction unsurpassed in quality.

Take a close look at just a few of the recently completed projects by NECA Greater Boston Chapter members. It will tell you where to turn for the highest standards in electrical, telecom, and renewable energy construction. Rely on the power of quality electrical work.
